

## SAFFRON ORDER OPTION

---

### 2. SMALL-SCALE & COMMERCIAL FARMING

#### Farming and purchase agreement.

- Saffricon sells saffron corms to the farmer for planting on their own.
- The farmer should deliver 100% of the saffron harvested from the corms to Saffricon at the prevailing market saffron price, subject to the authorised ISO grading quality of the specific harvest.
- The agreement is for 36 months (3 year growing season) with the specific intention to include the first year of saffron planting and harvesting season.
- After the 36 months, there will be an option to renew the agreement for a further 36 month period.
- Saffricon & Agri Technovation support included.
- Access to the Grower's online resource platform included.

Various options

See price list on next page

Excluding VAT.  
Delivery excluded.
